Removal of about 600,000 cubic yards of excess substrate material as a part of the County Flood Control District's water conservation program for Dominguez Gap is progressing according to schedule, Supervisor Burton W. Chace said today.

District plans call for use of the area as a water replenishment measure in combating the continued downward movement of the underground water table, Chace said. Made up of porous sands and gravels, the soil is particularly suitable for the development of spreading grounds.

James A. Evans, secretary of the Torrance Moose Lodge announced this week the initiation of Norval L. DeWeese, John Turkovich and J. J. Tur, M.D., as members of the Loyal Order of Moose fraternity in ceremonies conducted at the lodge hall.

The initiation program was under the direction of Edward Price, chairman of the Torrance ritual committee. A census ritual team from the San Pedro Moose Lodge conducted the membership ceremonies.

STANLEY HELMAN, past governor of the Torrance Moose Lodge, has been advanced to the Fellowship degree of the Moose fraternity. James McCune, governor of the local lodge, announced this week.

The Fellowship degree is an honorary degree conferred for special services rendered to the order.

It will be followed by serving of coffee and an exhibit of art and craft work in the Arts and Crafts Center in the building. The movie is from the library of the Los Angeles County Museum, which describes it as "probably one of the best nature pictures ever made." It won the Duxton Award at the Edinburgh Film Festival.
